

CENTAURS

CENTAURS IS A MONSTER SUPPLEMENT FOR 5E THAT PRESENTS CENTAURS NOT AS WANDERING CURIOSITIES BUT AS A structured warrior culture of the grasslands. Rather than treating centaurs as solitary nomads or occasional wilderness guardians, this book frames them as organized clans whose strength comes from mobility, discipline, and dominance of open terrain.

The intent of this product is mechanical clarity and encounter variety without unnecessary escalation. The ladder progresses from centaur youth through increasingly specialized battlefield roles, culminating in powerful war leaders capable of directing entire cavalry formations. These centaurs emphasize speed, momentum, and battlefield awareness, using the open plains as both shield and weapon.

Centaur encounters should feel fluid and dynamic. They favor wide maneuvering, coordinated charges, and ranged harassment before decisive impact. A centaur force rarely fights as scattered individuals. Instead, they operate as a roaming host, testing enemy formations, exploiting openings, and striking with overwhelming momentum when the moment is right.

Centaurians represent a civilization shaped by distance and movement. Their settlements are temporary, their alliances pragmatic, and their power measured in territory rather than walls. Use these stat blocks to represent migrating clans, roaming warbands, or the disciplined cavalry of a great steppe empire.
