

CULTISTS

Cultists is a monster supplement for 5e that presents cultists as a structured, escalating threat rather than a single disposable stat block. Instead of treating cultists as interchangeable robed enemies, this book provides a full ladder of cult roles—from initiates and zealots to ritual leaders, apostles, and hierophants—each designed to serve a distinct function at the table.

The intent of this product is encounter control and narrative flexibility. Each cultist type supports a specific mode of play: infiltration, crowd pressure, ritual defense, battlefield support, command, or apocalyptic climax. Beliefs, patrons, and moral framing are intentionally undefined, allowing these stat blocks to represent anything from secret societies and apocalyptic sects to state religions or alien faiths. These cultists are tools of belief and obedience—what they worship, and why, is left entirely in the GM's hands.
