

# CYCLOPES OF THE EXTREMES

**C**YCLOPES OF THE EXTREMES IS A MONSTER SUPPLEMENT FOR 5E THAT PRESENTS CYCLOPES NOT AS A SINGLE WANDERING giant archetype, but as apex predators shaped by the most dangerous environments in the world. Instead of relying on the familiar mythic brute alone, this book explores how a cyclops adapts to ice fields, deep forests, volcanic slopes, and suffocating jungles.

The intent of this product is environmental encounter variety without CR inflation. Each entry uses the familiar cyclops chassis at CR 6 while emphasizing terrain adaptation, battlefield control, and regional dominance. These creatures are not civilization builders or organized tribes. They are territorial monsters that become defining hazards of the landscapes they inhabit.

Each cyclops in this supplement represents a different ecological evolution. Frozen titans stalk glaciers, swamp cyclopes lurk half-submerged in marsh water, and volcanic cyclopes stride across lava fields. These variants allow a GM to place a cyclops naturally into nearly any wilderness region without needing to invent entirely new monster roles.

Lore remains intentionally light. Whether cyclopes are cursed giants, isolated offshoots of giantkind, or ancient primordial creatures tied to the land itself is left to the GM. Use these stat blocks as environmental tools. Why these cyclopes exist is yours to decide.

## ENVIRONMENTAL CYCLOPES

These cyclopes are not members of a shared civilization. Each represents a solitary or loosely territorial predator shaped by its environment. Their behavior, hunting style, and physical adaptation reflect the terrain they dominate.

Encounters with cyclopes should feel like entering the domain of a natural disaster rather than confronting an organized enemy. A glacier cyclops controls frozen ground, a jungle cyclops smashes through dense vegetation, and a volcanic cyclops turns magma and heat into weapons. Their strength lies not only in raw power, but in how the battlefield itself becomes part of the encounter.

## CYCLOPES ROSTER

| Name             | Challenge Rating | Description                                                                                |
|------------------|------------------|--------------------------------------------------------------------------------------------|
| Ice Cyclops      | 6                | Frozen titan that dominates glaciers and turns icy ground into a lethal battlefield.       |
| Forest Cyclops   | 6                | Woodland ambush predator that uses fallen timber and dense canopy for brutal close combat. |
| Swamp Cyclops    | 6                | Mud-covered lurker that drags prey into marsh water and fights from submerged terrain.     |
| Mountain Cyclops | 6                | Highland sentinel that controls cliffs and bombards enemies with massive boulders.         |
| Desert Cyclops   | 6                | Heat-scarred wanderer of the dunes that punishes enemies exposed in open terrain.          |
| Volcanic Cyclops | 6                | Fire-scarred titan that strides across lava fields and weaponizes molten stone.            |
| Sea Cyclops      | 6                | Amphibious shoreline hunter that attacks from surf, reefs, and rocky coasts.               |
| Jungle Cyclops   | 6                | Canopy-breaking giant that smashes through dense tropical jungle and crushes cover.        |

## SEA CYCLOPS

*Huge giant, chaotic neutral*

**Armor Class** 14 (natural armor)

**Hit Points** 138 (12d12 + 60)

**Speed** 30 ft., swim 40 ft.

| STR     | DEX     | CON     | INT    | WIS    | CHA     |
|---------|---------|---------|--------|--------|---------|
| 22 (+6) | 11 (+0) | 20 (+5) | 8 (-1) | 8 (-1) | 10 (+0) |

**Saving Throws** Con +8

**Skills** Athletics +9

**Senses** passive Perception 12

**Languages** Giant

**Challenge** 6 (2,300 XP)

**Proficiency Bonus** +3

**Poor Depth Perception.** This cyclops has disadvantage on any attack roll against a target more than 30 feet away.

**Amphibious.** This cyclops can breathe air and water.

**Tidal Stride.** This cyclops ignores difficult terrain caused by water, reefs, or slippery coastal rock.

**Undertow Grip.** When this cyclops hits a Large or smaller creature with a melee attack while both are in water, the target must succeed on a DC 16 Strength saving throw or be grappled (escape DC 16). Until this grapple ends, the creature is restrained and pulled 10 feet toward this cyclops at the start of each of this cyclops's turns.

### ACTIONS

**Multiattack.** This cyclops makes two weapon attacks.

**Coral Greatclub.** *Melee Weapon Attack:* +9 to hit, reach 10 ft., one target. *Hit:* 19 (3d8 + 6) bludgeoning damage.

**Hurl Tidal Boulder.** *Ranged Weapon Attack:* +9 to hit, range 30/120 ft., one target. *Hit:* 22 (3d10 + 6) bludgeoning damage.

- This cyclops fights best in waist-deep water or along rocky coasts.
- It attempts to grapple enemies and drag them beneath the waves.
- From shorelines or reefs it throws boulders before wading in to finish prey.
