

EAGLEFOLK

AGLEFOLK IS A MONSTER SUPPLEMENT FOR 5E THAT PRESENTS EAGLEFOLK AS DISCIPLINED AERIAL HUNTERS AND guardians of the highest peaks. These creatures dominate vertical battlefields, striking from above with speed, precision, and overwhelming aerial control. Their societies are built among mountain cliffs, towering spires, and storm-lashed crags where only the strongest fliers can survive.

The intent of this product is mechanical clarity and encounter variety without CR inflation. The ladder progresses from young aerial hunters to legendary sky champions capable of commanding entire battlefields from the air. These eaglefolk rely on mobility, dive attacks, and battlefield positioning rather than brute durability. When used effectively, they force players to think in three dimensions and adapt to threats that rarely remain on the ground.

Cultural details are intentionally minimal. Whether eaglefolk are noble guardians of sacred peaks, territorial predators of the high mountains, or disciplined skyward civilizations is left to the GM. Their motivations may range from protecting ancient aeries to enforcing dominion over the skies. Use these stat blocks as tools to bring the vertical dimension of combat to life.
