

GIANTS: THE CLASSIC SIX

GIANTS: THE CLASSIC SIX IS A MONSTER supplement for 5e that expands the classic giant species into functioning societies rather than isolated monsters. Each lineage is presented as a structured hierarchy that progresses from young giants through seasoned warriors and culminates in ruling kings. Instead of treating giants solely as solitary brutes, this supplement frames them as organized civilizations with authority, tradition, and battlefield doctrine.

The intent of this product is to deepen encounter variety while remaining faithful to the established Challenge Ratings of the Monster Manual. Each ladder aligns its central warrior tier with the existing CR of the corresponding giant type while introducing new abilities and behaviors that do not duplicate official traits. These giants are designed to appear in clans, warbands, courts, and dynasties rather than as single wandering threats.

Lore is intentionally minimal so that GMs can place these societies wherever giants already exist in their worlds. A hill giant tribe, a stone giant cavern court, or a cloud giant sky palace can now function as a complete social structure. The stat blocks represent roles within those cultures rather than rewriting the giants themselves.

THE HILL GIANTS

Hill giants embody raw appetite and crude dominance. Their tribes revolve around strength, intimidation, and the relentless pursuit of food and plunder. Leadership is determined by physical brutality rather than wisdom, and the strongest giant eventually devours or crushes rivals to claim the title of king.

Hill giant encounters emphasize reckless aggression, overwhelming size, and destructive momentum. They break through defenses with thrown boulders and crushing blows, often relying on sheer numbers and intimidation rather than strategy.

THE STONE GIANTS

Stone giants represent ancient patience and artistic power. Their cavern societies revolve around shaping stone, preserving tradition, and maintaining a deep philosophical connection to the earth. Violence is deliberate and purposeful, often carried out with calm precision.

Stone giant encounters emphasize controlled battlefield presence and terrain manipulation. They favor balanced stone weapons and deliberate positioning, striking with overwhelming force when provoked.

THE FROST GIANTS

Frost giants are warriors of conquest and glory. Their culture prizes strength, heroic combat, and trophies taken from worthy foes. Jarls command warbands that raid settlements and rival clans alike, seeking victory worthy of saga and legend.

Frost giant encounters emphasize aggressive charges, brutal axe strikes, and dominance through intimidation. They are relentless fighters who test the strength of enemies before claiming victory.

THE FIRE GIANTS

Fire giants are disciplined militarists and master smiths. Their societies revolve around conquest, industry, and the forging of powerful weapons. Fire giant rulers command armies with the precision of battlefield generals and the pride of master craftsmen.

Fire giant encounters emphasize heavy armor, siege warfare, and disciplined formations. They strike with overwhelming weapon power and molten force forged in volcanic strongholds.

THE CLOUD GIANTS

Cloud giants represent aristocratic ambition and skyborne nobility. Their floating courts and cloud palaces are places of rivalry, intrigue, and elegant displays of strength. Combat among them is often as much a matter of pride and status as survival.

Cloud giant encounters emphasize mobility, aerial maneuvering, and precise strikes from above. They favor elegance and calculated advantage rather than brute force.

THE STORM GIANTS

Storm giants are the most ancient and contemplative of giantkind. Their rulers command the power of sea and storm, and their societies often exist far from mortal lands in deep ocean fortresses or remote coastal citadels.

Storm giant encounters emphasize elemental power, overwhelming presence, and battlefield dominance through lightning and thunder. Their kings appear as living embodiments of the storm itself.

Challenge 14 (11,500 XP)

King of the Forge. Allied giants and constructs within 30 feet of this giant have advantage on saving throws against being frightened.

Burning Presence. At the start of each of this giant's turns, creatures of its choice within 10 feet take 7 (2d6) fire damage.

Legendary Resistance (3/Day). When this giant fails a saving throw, it can choose to succeed instead.

ACTIONS

Multiattack. This giant makes two greatsword attacks.

Greatsword. *Melee Weapon Attack:* +13 to hit, reach 10 ft., one target. *Hit:* 25 (3d10 + 8) slashing damage plus 10 (3d6) fire damage.

Molten Spear. *Ranged Weapon Attack:* +13 to hit, range 60/180 ft., one target. *Hit:* 26 (3d8 + 8) piercing damage plus 10 (3d6) fire damage.

Molten Quake (Recharge 5–6). The giant slams its weapon into the ground, sending molten fragments outward. Creatures within 15 feet must succeed on a DC 18 Dexterity saving throw or take 21 (6d6) fire damage and fall prone. On a successful save, the creature takes half damage and does not fall prone.

LEGENDARY ACTIONS

The giant can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The giant regains spent legendary actions at the start of its turn.

Move (1 Action). The giant moves up to half its speed.

Greatsword Attack (1 Action). The giant makes one greatsword attack.

Flame Burst (2 Actions). Fire erupts in a 10-foot radius centered on a point the giant can see within 30 feet. Creatures in the area must succeed on a DC 18 Dexterity saving throw or take 10 (3d6) fire damage. On a successful save, the creature takes half damage.

- This giant dominates the battlefield from the center of combat.
- It eliminates the most dangerous enemies first to maintain authority.
- Its legendary actions represent the relentless pressure of a giant king in battle.
