

HELL BEASTS

HELL BEASTS IS A MONSTER SUPPLEMENT FOR 5E THAT EXPANDS INFERNAL CREATURES BEYOND THE FAMILIAR HELLHOUND, presenting a range of animals twisted by the fires of the Lower Planes. Instead of relying on a single fiendish predator repeated across encounters, this book introduces a structured ecology of corrupted beasts—from vermin and scavengers to apex predators and infernal war engines.

The intent of this product is encounter variety without mechanical escalation. Each hell beast is built around the same core identity: a natural creature transformed into a fiendish predator whose body burns with supernatural heat. Their shared trait is a breath of hellfire that grows more powerful as the creatures become larger and more dangerous.

These monsters are not demons of strategy or devils of contract. They are instinct-driven hunters and territorial beasts, driven by hunger, pain, and the influence of infernal magic. Some are unleashed by cults, some escape from infernal portals, and others roam scorched wilderness where the boundaries between planes have grown thin.

Hell beasts appear wherever hellfire touches the natural world:

- Infernal incursions where devils march and their beasts follow.
- War-torn battlefields where fiendish magic has seeped into the land.
- Cult territories where dark rituals corrupt animals into monstrous guardians.
- Volcanic wastelands and burned forests where ordinary creatures cannot survive.

Most hell beasts behave like the animals they once were, but magnified by infernal fury. Pack hunters stalk prey through smoke and ash. Aerial predators circle burning fields for the weak and wounded. Massive infernal brutes smash through fortifications like living siege engines.

While a single hell beast can be dangerous, their true threat appears when multiple species share the same hunting grounds. Smaller creatures harass and drive prey while larger predators strike the killing blow.

Use these monsters to turn ordinary wilderness encounters into infernal ecosystems, to populate cult strongholds with terrifying guardians, or to show how the corruption of the Lower Planes spreads through the natural world.

Where the first hell beast appears, others are rarely far behind.

HELL RABBIT

Small fiend (devil), lawful evil

Armor Class 14

Hit Points 27 (6d6 + 6)

Speed 50 ft.

STR	DEX	CON	INT	WIS	CHA
10 (+0)	17 (+3)	12 (+1)	5 (-3)	13 (+1)	8 (-1)

Skills Perception +3, Stealth +5

Damage Immunities fire

Senses darkvision 60 ft., passive Perception 13

Languages understands Infernal but can't speak

Challenge 1 (200 XP)

Proficiency Bonus +2

Explosive Charge. If this rabbit moves at least 20 feet straight toward a creature and then hits it with a bite attack on the same turn, the target takes an extra 5 (2d4) fire damage.

ACTIONS

Bite. *Melee Weapon Attack:* +5 to hit, reach 5 ft., one target. *Hit:* 6 (1d6 + 3) piercing damage plus 3 (1d6) fire damage.

Cinder Breath (Recharge 5–6). The rabbit exhales flame in a 10-foot cone. Each creature in that area must make a DC 12 Dexterity saving throw, taking 7 (2d6) fire damage on a failed save, or half as much damage on a successful one.

BONUS ACTIONS

Evasive Burst. After using its Cinder Breath, this rabbit can take the Disengage action as a bonus action.

- Hell rabbits rely on speed and surprise, striking suddenly before darting away.
- They prefer isolated targets and open ground where they can build momentum for their charge.
- Several hell rabbits attacking together can overwhelm slower creatures through repeated charges.

HELL ELEPHANT

Huge fiend (devil), lawful evil

Armor Class 18

Hit Points 168 (16d12 + 64)

Speed 40 ft.

STR	DEX	CON	INT	WIS	CHA
24 (+7)	10 (+0)	19 (+4)	6 (-2)	14 (+2)	12 (+1)

Senses darkvision 60 ft., passive Perception 15

Languages understands Infernal but can't speak

Challenge 6 (2,300 XP)

Proficiency Bonus +3

Siege Engine. This elephant deals double damage to objects and structures.

Unstoppable Bulk. This elephant has advantage on saving throws against being knocked prone or moved against its will.

Furnace Hide. A creature that hits this elephant with a melee attack while within 5 feet of it takes 5 (1d10) fire damage.

ACTIONS

Multiattack. This elephant makes two attacks: one with its Gore and one with its Stomp.

Gore. *Melee Weapon Attack:* +10 to hit, reach 10 ft., one target. *Hit:* 20 (2d12 + 7) piercing damage plus 7 (2d6) fire damage.

Stomp. *Melee Weapon Attack:* +10 to hit, reach 5 ft., one prone creature. *Hit:* 22 (3d10 + 7) bludgeoning damage plus 7 (2d6) fire damage.

Trample (Recharge 5–6). This elephant moves up to its speed in a straight line. During this movement, it can move through the space of Large or smaller creatures. Each creature whose space the elephant enters must make a DC 16 Strength saving throw, taking 27 (6d8) bludgeoning damage plus 14 (4d6) fire damage and being knocked prone on a failed save, or half as much damage on a successful one.

Cinder Breath (Recharge 6). The elephant exhales flame in a 30-foot cone. Each creature in that area must make a DC 16 Dexterity saving throw, taking 42 (12d6) fire damage on a failed save, or half as much damage on a successful one.

- Hell elephants are infernal war beasts often used to smash fortifications and break enemy lines.
- Their massive size and armored hide allow them to advance through heavy resistance.
- When unleashed on a battlefield, they behave like living siege engines, trampling anything in their path.
