

HOBGOBLINS: THE LEGION

HOBGOBLINS: THE LEGION IS A MONSTER SUPPLEMENT FOR 5E THAT PRESENTS HOBGOBLINS AS A DISCIPLINED MILITARY civilization rather than scattered warbands. Instead of treating hobgoblins as slightly more organized goblins, this book frames them as a fully structured legionary war machine built on hierarchy, doctrine, and relentless battlefield discipline.

The intent of this product is mechanical clarity and encounter variety without chaotic escalation. Each stat block represents a defined military role within a functioning army: skirmishers, legion infantry, siege crews, cavalry, and officers who maintain strict command structures. Hobgoblins fight as a coordinated force where formation, positioning, and command authority determine the flow of battle.

These hobgoblins are not raiders driven by impulse. They are soldiers trained for war from youth, operating within a rigid chain of command that mirrors organized human militaries but with the brutal efficiency of hobgoblin culture. Breaking their formations, isolating officers, or disrupting their doctrine becomes the key to defeating them.

Use these stat blocks to represent a hobgoblin warhost on campaign, a fortified legion encampment, or the expanding frontier of a disciplined conquering army.
