

CAPITAL SHIP

CARGO BAYS

MAP PACK

Small Cargo Bay

This cargo bay is where small freighters dock on the capital ship to load and off-load cargo. The two story high **Cargo Bay** accommodates one light freighter at a time.

Cargo is off-loaded onto the **Cargo Lifts** and then moved down to **Freight Processing**. There are two **Cargo Lifts** that can be either up (on this map) or down (in Freight Processing).

The cargo lifts are controlled from the **Control Rooms** which are located on the second level above the access hallway.

The **Space Door** is special magnetic seal that allows freighters to pass through without allowing the atmosphere out.

VTT Settings: (each unit is 70 pixels)
Page Size: 30 units wide by 30 units high
Scale: 1 unit = 1 m (or 3 ft.)

Freight Processing

This is where freight brought down from the Cargo Bays is processed. There are two **Cargo Lifts** that can be either up (in the cargo bay) or down (on this map).

Freight is processed and then sent to the appropriate part of the ship via the **Transport Tracks**. The transport tracks are a sub level system connecting all major parts of the ship. It has fast moving freight cars and is unsafe for walking.

VTT Settings: (each unit is 70 pixels)
Page Size: 30 units wide by 32 units high
Scale: 1 unit = 1 m (or 3 ft.)

Freight Dock

Freighters too large to land in a cargo bay attach to the airlock to load and offload cargo.

The airlock is always closed unless there is a freighter docked.

VTT Settings: (each unit is 70 pixels)
Page Size: 30 units wide by 36 units high
Scale: 1 unit = 1 m (or 3 ft.)

Large Cargo Bay

The **Large Cargo Bay** works exactly like the **Cargo Bay** except it has the capacity to hold one medium freighter or two light freighters. Heavy freighters need to use the **Freight Dock**.

VTT Settings: (each unit is 70 pixels)
Page Size: 60 units wide by 43 units high
Scale: 1 unit = 1 m (or 3 ft.)

For each location, maps are provided for:

- Both Normal and Alert status
- With grid and without grid

This set includes the following files:

- Small Cargo Bay - Normal.jpg
- Small Cargo Bay - Normal (Grid).jpg
- Small Cargo Bay - Alert.jpg
- Small Cargo Bay - Alert (Grid).jpg
- Small Cargo Bay - GM Overlay.png
- Large Cargo Bay - Normal.jpg
- Large Cargo Bay - Normal (Grid).jpg
- Large Cargo Bay - Alert.jpg
- Large Cargo Bay - Alert (Grid).jpg
- Large Cargo Bay - GM Overlay.png
- Freight Processing - Normal.jpg
- Freight Processing - Normal (Grid).jpg
- Freight Processing - Alert.jpg
- Freight Processing - Alert (Grid).jpg
- Freight Processing - GM Overlay.png
- Freight Dock Open - Normal.jpg
- Freight Dock Open - Normal (Grid).jpg
- Freight Dock Open - Alert.jpg
- Freight Dock Open - Alert (Grid).jpg
- Freight Dock Open - GM Overlay.png
- Freight Dock Closed - Normal.jpg
- Freight Dock Closed - Normal (Grid).jpg
- Freight Dock Closed - Alert.jpg
- Freight Dock Closed - Alert (Grid).jpg
- Freight Dock Closed - GM Overlay.png
- Capital Ship - Cargo Bays - GM Notes.pdf (the file you are currently reading)

The GM Overlay.png files are made to be placed on the GM Notes layer in your Virtual Tabletop system of choice. Since they are the same size as the map, once the settings for the map are correctly set, they can be easily placed on the GM Notes layer.

This set includes the following tokens:

- Cargo Lift - Normal.jpg
- Cargo Lift - Normal (Grid).jpg
- Cargo Lift - Alert.jpg
- Cargo Lift - Alert (Grid).jpg

These tokens can be placed on the maps when the cargo lifts are present.
