

The background of the cover features a vertical wooden structure on the left, possibly a watermill frame, with several horizontal wooden planks. To the right, a large, golden-brown gear with multiple teeth and circular cutouts is visible. The overall scene is set against a dark, textured background that suggests a body of water or a stone wall. The title text is overlaid in a white, elegant script font.

Fantasy Water & Wind Mills

*Floor Plans and maps
For Virtual table top or printing*

These mills grind grain into flour. The order of the floors is different per mill.

Water Mill

1. Underneath
2. Wheel Floor
3. Grind Floor
4. Loading Floor
5. Roof

Wind Mill

1. Underneath
2. Grind Floor
3. Loading Floor
4. Wheel Floor
5. Roof

VTT Settings: (each unit is 70 pixels)
Page Size: 20 units wide by 20 units high
Scale: 1 unit = 1 m (or 3 ft.)
Grid Size: 1 units

Water Mill - Wheel Floor

The turning water wheel turns a huge gear with turns the milling stones on the floor above. Ground flour falls from the floor above and is bagged on this level.

Water Mill - Grind Floor

This is where the grain is ground into flour between massive milling stones. Grain is loaded from the floor above and flour drops down to the floor below.

Water Mill - Loading Floor

Here a block-and-tackle loads grain from below in large sacks. The grain is then dropped into the milling stones on the floor below.

Water Mill - Roof

Water Mill - Underneath

The mill is build on stilts and can be walked underneath.

Wind Mill - Wheel Floor

Massive sails catch the wind and spin a huge gear that spins the milling stones two floors below.

Wind Mill - Loading Floor

Here a block-and-tackle loads grain from below in large sacks. The grain is then dropped into the milling stones on the floor below.

Wind Mill - Grind Floor

This is where the grain is ground into flour between massive milling stones. Grain is loaded from the floor above and flour drops into bags here.

Wind Mill - Roof

This is where the grain is ground into flour between massive milling stones. Grain is loaded from the floor above and flour drops into bags here.

For each location, maps are provided for:

- With grid and without grid

This set includes the following files:
