

TINKERER'S GADGETS

TINKERER'S GADGETS IS A 5TH EDITION compatible supplement containing 21 personal mechanical items for use in your campaign. Unlike Devices, Gadgets are carried by individual creatures and used directly from inventory — from wrist-mounted crossbows and spring-powered saws to breathing apparatus and throwable gas bombs. This supplement requires the **free** [Tinkerer's Compendium](#) for all construction, repair, salvage, and parts rules.

GADGETS

Gadgets are personal mechanical items carried and used by individual creatures. They function like equipment — stored in inventory and used by their owner. No proficiency is required to use a Gadget though proficiency in Tinker's Tools is required to build one.

Some Gadgets have charges that are expended on use. When a Gadget runs out of charges it is not destroyed — it is simply empty and can be refilled with the appropriate canister or component. Some Gadgets are single use and are consumed when activated.

Gadget	Description
The Seamer	A handheld welding tool that permanently fuses two pieces of metal together. 20 charges per canister.
Flame Shear	A handheld cutting tool that cuts through up to 1 inch of metal per action. 20 charges per canister.
The Buzzer	A spring-powered handheld circular saw that spins for 3 rounds after cranking. Cuts wood and deals 1d10 slashing damage.
The Popper	A pneumatic rivet gun that fires rivets at 20/60 ft. for 1d6 piercing damage or seals doors shut.
The Bellow	A brass amplification horn that magnifies the user's voice by 10 times its normal volume.
The Luminary	A directional lamp with a parabolic mirror that projects a 40 foot cone of bright light. 4 hours per canister.
Iron Jack	A compact crank-operated lifting tool that raises objects up to 500 lb. by 1 foot per action.
The Scrutineer	A handheld microscope that reveals details invisible to the naked eye and grants advantage on identifying potions and poisons.
The Peeper	A collapsible periscope that allows the user to see around corners and over obstacles without exposing themselves.
The Prod	A collapsible pole that spring-extends to 10 feet instantly. Functions as a quarterstaff while extended.
The Eavesdropper	A brass ear trumpet that grants advantage on Perception checks relying on hearing.
The Respirator	A breathing mask that provides immunity to inhaled gases and allows underwater breathing. 1 hour per canister.
The Scalers	Boots and gloves fitted with retractable iron clamps that grant advantage on climbing checks.
The Trembler	A seismic detector that grants tremorsense to 20 feet when placed on a solid surface.
The Sting	A wrist-mounted crossbow concealed beneath a sleeve. Advantage on attacks against unaware targets. 1d6 piercing damage.
Smoke Bomb	A throwable canister that releases a 10 foot radius cloud of smoke that heavily obscures for 5 rounds.
Fire Bomb	A throwable canister that explodes in a 10 foot radius dealing 3d6 fire damage. DC 14 DEX save for half.
Poison Bomb	A throwable canister that explodes in a 10 foot radius dealing 2d6 poison damage. DC 14 CON save for half.
Adhesive Bomb	A throwable canister that covers a 10 foot radius in adhesive, creating difficult terrain and restraining creatures.
Thermal Detector	A glass lens that displays heat signatures within 40 feet, including through walls and doors at reduced range.
The Inspectors	Adjustable magnifying goggles with close and far settings. Advantage on relevant checks, disadvantage on all others while active.

THE SEAMER

Gadget, common

A handheld welding tool powered by a small fuel canister. The Seamer is used to permanently fuse two pieces of metal together in workshops and field repairs alike.

Weight. 2 lb.

Parts. Flammable Liquid Fuel Canister, Copper Tip, Trigger Mechanism.

Construction. 1 day, 45 gp + parts, Tinker's Tools DC 14.

Charges. The Seamer holds 20 charges. Each use of Fuse expends 1 charge. A Flammable Liquid Fuel Canister can be used to restore all charges.

Fuse. As an action, you touch The Seamer to two adjacent pieces of metal, permanently fusing them together. The fused metal can be broken apart with a DC 15 Strength check. This can only be performed on a willing creature or unattended object.

FLAME SHEAR

Gadget, common

A handheld cutting tool powered by a small fuel canister. The Flame Shear is used to cut through metal objects in workshops and field operations alike.

Weight. 2 lb.

Parts. Flammable Liquid Fuel Canister, Copper Tip, Trigger Mechanism.

Construction. 1 day, 45 gp + parts, Tinker's Tools DC 14.

Charges. The Flame Shear holds 20 charges. Each use of Cut expends 1 charge. A Flammable Liquid Fuel Canister can be used to restore all charges.

Cut. As an action, you touch the Flame Shear to a metal object, cutting through up to 1 inch of metal. Objects thicker than 1 inch require multiple actions. This can only be performed on an unattended object or with the consent of a willing creature.

THE BUZZER

Gadget, common

A handheld spring-powered saw designed for cutting wood in the workshop. The spinning blade is equally effective on other materials, including flesh.

Weight. 3 lb.

Parts. Spring, Trigger Mechanism, Iron Blade.

Construction. 1 day, 30 gp + parts, Tinker's Tools DC 14.

Crank. As an action you wind the spring mechanism, causing the blade to spin for 3 rounds. After 3 rounds the blade winds down and must be cranked again before it can be used.

Cut Wood. As an action you press the spinning blade against a wooden surface, cutting through up to 3 inches of wood.

Saw Attack. While the blade is spinning, you can make a melee weapon attack using your Strength modifier. On a hit the target takes 1d10 slashing damage.

COMPATABLE PRODUCTS

TINKERER OBJECTS & RULES

- [Tinkerer's Compendium](#) — The free rules companion to the Tinkerer's series. Contains all construction, repair, salvage, and parts rules required to use any supplement in this line.
- [Tinkerer's Devices](#) — 18 large mechanical constructs deployed on the battlefield, from flame-throwing tripods and deployable barricades to mechanical cranes and scissor lifts.
- [Tinkerer's Traps](#) — 12 Triggers and 19 Payloads for building mechanical traps. Mix and match any Trigger with any Payload to create hundreds of unique combinations.

MAPS

- [Tinkerton](#) - Maps of a Gnomish village including a Master Tinkerer's Workshop.
- [Cogworks Tavern](#) - Maps of a tavern frequented by Tinkerers.

MONSTERS & NPCs

- [Gearbound Gnomes](#) - A ladder of gnomes specialized in tinkering.
